Baharak Bakhtiari
Front-end Developer

A self-taught frontend web developer with a blend of design and problem-solving skills. Building responsive and user-friendly web experiences using HTML, CSS, JavaScript, Bootstrap and React.js. Looking for opportunities to advance my skills in a collaborative, team oriented environment and learn the latest frontend technologies.

Projects

Weather Application
GitHub-Live
React.js, Bootstrap
- Employed external **API** to retrieve weather data, and handled API request using **Axios** library
- Utilized functional components and **hooks** such as Effect and State for unit conversion and to show or track relevant data for each location

Online Fast Food Restaurant
GitHub-Live
React.js, Bootstrap
- Utilized an external API to retrieve menu items
- Optimized performance by making a **custom hook** to handle several API calls and fetch data using Axios
- Filtered menu items based on chosen category and server-side filtering based on search bar input

Programmers team
GitHub-Live
React.js, Bootstrap
- Employed **context API** to manage theme changing
- Implemented **server-side pagination** to handle number of displayed programmers on each page based on page size

Coffee Shop Website
GitHub-Live
JavaScript, CSS
- Developed a website that meet both functional and design requirements while providing a high-quality user experience.
- Implemented a shopping cart feature using JavaScript and data persistence through local storage, enabling customers to return to their carts at a later time or view their purchase history.

Personal Portfolio
GitHub-Live
HTML, CSS, Bootstrap
- Implemented responsive design elements using the popular CSS framework Bootstrap to ensure seamless adaptability across all screen sizes and devices.

Professional Experience

Site Admin and Coordinator
(Feb 2023-Present)
Radio Margin
- coordinating various aspects of project including timelines and deliverables to endure project progress
- Designing, developing and maintaining a fully responsive website using WordPress
